

Almaty Electric Stations JSC announces ecological campaigns “Unload yourself!” aimed at collecting and handing over waste batteries and collecting and handing over waste paper: “What remains after us ...”.

The aim of the campaign: raising the awareness of the Company's employees about separate waste disposal and the environment in general, developing an active social position and acquiring the skills of hazardous waste management.

Objective of the campaign: arrangement of intensive collection and handover of waste batteries for further recycling, as well as collection and handover of waste paper for recycling, which will save dozens of trees, as well as develop a culture of careful attitude to resources and environmental responsibility at the corporate level.

Campaign description: the participants of the campaign will collect waste batteries until 05 December for further transfer to a company engaged in their recycling, and paper waste, which is generated in the course of the Company's daily work - office paper, magazines, advertising printing, newspapers, old and obsolete books, paper packaging, and cardboard. After the end of the campaign, all collected waste paper will be handed over to a specialized organization for recycling in accordance with the concluded agreement.

The waste batteries should be handed over to the responsible ecologists of the Production Department, in the Head Office they are accepted in office #234.

Participants: all employees of the Company.

Requirements for environmental campaigns:
